

Dear Hiring Manager,

I am writing to express my strong interest in the Software Engineer position at Your Company. As a current Software Engineer intern at SilverlineIT, I have gained valuable experience in developing both the frontend and backend of applications, managing databases, and creating APIs. I am eager to leverage this diverse skill set to contribute to Your Company's dynamic team.

During my internship at SilverlineIT, I had the privilege of working on a variety of projects where I was responsible for developing both the frontend and backend components. This experience has allowed me to gain proficiency in a wide range of technologies and tools, including Java for backend development and relevant front-end technologies for user interface design. Additionally, I have been actively involved in database management and the creation of APIs, further expanding my skill set.

My internship has provided me with a holistic understanding of the software development process, from concept and design to implementation and deployment. I have collaborated closely with a talented team of professionals, which has improved my technical skills and strengthened my communication and collaboration abilities.

My experience at Silverline IT has equipped me with practical skills and insights that I believe will be invaluable to Your Company. I am confident in my ability to contribute effectively as a Software Engineer and am enthusiastic about the opportunity to continue my professional development with your organization.

I have attached my updated resume, which provides a detailed overview of my experience, including my current role as a Software Engineer intern at SilverlineIT. I look forward to the opportunity to discuss how my background aligns with the requirements of the Software Engineer position at Your Company. Please feel free to contact me at your earliest convenience to schedule an interview.

Thank you for considering my application. I am excited about the possibility of contributing to Your Company and furthering my career as a Software Engineer.

Regards & Thanks,
Nuyun Kalamullage
